

PURE MENTORSHIP

Igniting the path for a brighter future

Founded with the mission of supporting students in the pursuit of higher education, Pure Mentorship connects mentees with successful and well-rounded mentors.

The Pure Mentorship team—founder, mentors, and interns—all play vital roles in supporting the mentees in their journeys. If you are interested in joining the team and contributing to the initiative, consider which role you think best suits your qualifications and passions.

Mentors

Are you passionate about helping someone younger realize their dreams and help them achieve it? Knowledge is power and now as a mentor, you can give back.

Interns

Are you motivated with the impact you can have on our team and a larger community? Design your own internship experience and make waves with your skills.
